

The Sun

Days of the New

The sun is my sun
I'm the one who takes you down and brings you here
Yeah, well, the sun is my sun
I'm the one who takes you down and brings you here

I am trapped, can't go no further
I am sick looking at the sky
I am trapped, can't go no further
I am sick looking at the sky

I've learned to hate you now, now
I've learned to hate you

The sun is my sun
I'm the one who takes you down and brings you here
Yeah, well, the sun is my sun
I'm the one who takes you down and brings you here

I am trapped, can't go no further
I am sick looking at the sky
I am trapped, can't go no further
I am sick looking at the sky

I've learned to hate you now, now
I've learned to hate you

I've learned to hate you now, now
(I am trapped, can't go no further)
I've learned to hate you now, now
(I am sick looking at the sky)
I've learned to hate you now, now
(I am trapped, can't go no further)
I've learned to hate you now, now
(I am sick looking at the sky)
I've learned to hate you
I've learned to hate you

I've learned to hate you
I've learned to fucking hate you
I've learned to hate you
Yeah
