

# Quicksand

Dayseeker

I've been wading through the quicksand  
Trying to find a way to pretend  
All my demons know where I stand  
I've been sinking down and I know  
The more I move, the lower I go  
I've been wading through the quicksand

Take if you want to take  
That's your only way to live  
The brink of a miracle  
But something's gotta give  
A decade I fought for you  
Now I'm fightin' to forget your name  
Our love wasn't typical  
But nothing's gonna change

Tables turn but let them burn 'cause  
I don't mind when I look at you and realize

I've been wading through the quicksand  
Trying to find a way to pretend  
All my demons know where I stand  
I've been sinking down and I know  
The more I move, the lower I go  
I've been wading through the quicksand

Quit if you want to quit  
You don't have to say a word  
I know you won't fail to hesitate  
When you kick me to the curb

Tables turn but let them burn 'cause  
I don't mind when I look at you and realize

I didn't get what I wanted  
Now everything is just haunted  
Recall the world was so quiet  
Now everything is just violent

'Cause I've been wading through the quicksand  
Trying to find a way to pretend  
All my demons know where I stand  
I've been sinking down and I know  
The more I move, the lower I go  
I've been wading through the quicksand  
I've been wading through the quicksand

I've been sinking down and I know  
The more I move, the lower I go  
I've been wading through the quicksand
