

# Shapeshift

Dayseeker

You're turning into a shadow  
You fall but you levitate  
I watch you shapeshift in front of me  
And drift to the dark

Black hands hold your lungs  
And they love to suffocate you  
They will bite down, drain your blood  
Wear your skin like it's a costume

You know there's something wicked in the way it moves  
Terrorizing every part of you  
But can't you see

You're turning into a shadow  
You fall but you levitate  
I watch you shapeshift in front of me  
And drift to the dark

Red eyes bring the flood  
And they love the way you shape shift  
Does the gloom fit like a glove  
While you're drowning in the basement

You know there's something wicked in the way it moves  
Terrorizing every part of you  
But can't you see

You're turning into a shadow  
You fall but you levitate  
I watch you shapeshift in front of me  
And drift to the dark

You run like a phantom  
Hold onto every mistake  
I watch you shapeshift in front of me  
And drift to the dark

Something wicked in the way it moves  
Terrorizing every part of you

It eats you alive 'til you're hollow  
But you don't belong to the shadows  
Watch you shapeshift in front of me

You're turning into a shadow  
You fall but you levitate  
I watch you shapeshift in front of me  
And drift to the dark

You run like a phantom  
Hold onto every mistake  
I watch you shapeshift in front of me  
And drift to the dark
