

Without Me

Dayseeker

How did we let it all come to nothing
Feelin' like I should've been feelin' something
Lately I've been puttin' it off to see if
You'd come back crawling
The floor is falling out

So don't you hold me if you don't wanna know me
Don't you play dumb when I see what you run from
So don't you leave me empty when it's only in my eyes

How do you feel the same without me?
How do you feel the same when I don't sleep?
Somehow found me but you still doubt me
How do you feel the same without me?

Call me when you know that you're feelin' lovesick
Or you can call it off when you see that I ain't shit
Lately I been puttin' it off to see you
Don't come back crawling
The floor is falling out

Don't you hold me if you don't wanna know me
Don't you play dumb

How do you feel the same without me?
How do you feel the same when I don't sleep?
Somehow found me but you still doubt me
How do you feel the same without me?

So don't you hold me if you don't wanna know me
So don't you leave me empty when it's only in my eyes

How do you feel the same without me?
How do you feel the same when I don't sleep?
Somehow found me but you still doubt me
How do you feel the same without me?

How do you feel?

How do you feel?
Without me
