

# Letting Go

Dayshell

Leave me out on the motor way  
I think we're over babe  
I need the piece of you replaced

The Constitution of my solution begs the case and point I make

Congratulations I hope you made it there ok, love  
A kiss goodbye to pass the time  
But you better believe I'm letting go

I hope he watches over you  
Letting go  
I hope he loves the way you want him to

Can't say you're relatable  
Cause face off, and the worst part is freakin on me  
Didn't have to ask  
You put the words right in your mouth

Congratulations I hope you made it there ok, love  
A kiss goodbye to pass the time  
But you better believe I'm letting go

I hope he watches over you  
I'm letting go  
I hope he loves the way you want him to  
Can you see my weakness I'm speechless  
I will take the fall  
I'm letting go  
I hope he loves the way you want him to

I'm over it  
Don't say I'm sweet  
Don't take me for dream  
Laugh for me little flower  
And say goodnight to a life of you and me

I hope he watches over you  
I hope he loves the way you want him to

Go  
I hope he watches over you  
I'm letting go  
I hope he loves the way you want him to  
Can you see my weakness I'm speechless  
I will take the fall  
I'm letting go  
I hope he loves the way you want him to
