

Recovering Flames

Dayshell

This place it looks familiar
I can see you there
It talks about it talks about your love
If you only knew the world and your perfection
Turning yourself to
(Flames discover me, im a place I feel that you need)
Recovering flames discover me
I'm in a place I feel I don't need to be
Out of my head
Out of my mind
Can this be over now that I'm colorblind
(Recovering flames)
My bones they start to shiver
I get lost in time
To feel the spark I came to reignite
If you only knew the world and your perfection
Turning yourself to
(Flames discover me, im a place I feel that you need)
Recovering flames discover me
I'm in a place I feel I don't need to be
Out of my head
Out of my mind
Can this be over now that I'm colorblind
Recovering flames discover me
I'm in a place I feel I don't need to be
Out of my head
Out of my mind
Can this be over now that I'm colorblind
Satellites you see my side
Satellites turn me around
Satellites you see my side
Make this change
And go away
Free my mind
Satellites you see my side
Satellites turn me around
Recovering flames discover me
I'm in a place I feel I don't need to be
Out of my head
Out of my mind
Can this be over now that I'm colorblind
Recovering flames discover me
I'm in a place I feel I don't need to be
Get out of my head
Get out of my mind
Can this be over now that I'm colorblind
