Superhuman

Dayshell

Open up your heart
There's plenty to choose from

The pen is your divide
That you break through
You have to embrace the pressure

It's screaming out your name

You better signal to the airplanes
We need a witness
When your blood
Stops flowing

We did this all for no one

You can't change your mind
Or ever surrender this
Gold's right in your hands
Slipping through
Right through you

You can use all the opposites like
Your anger
And your fear

Channel all the emotions
That push you down

You better signal to the airplanes
We need a witness
When your blood
Stops flowing

We did this all for no one

You better signal to the airplanes
We need a witness
When your blood
Stops flowing

We did this all for no one

I'm superhuman
It flows through my veins
I'm not afraid

I'm superhuman
It flows through my veins
I'm not afraid
Of the dark or boogie

I'm all but forgotten
I take this to my grave

Shine a light on the world
So you know just who I am

I'm not afraid
Of the dark or boogie man

Shine a light on the world
So you know just who I am
