

When You Can't Dream at Night

Dayshell

You've got that fucked up attitude calling my name
You need to fasten up so you'll never be late
I'm in the business of forgiveness if you wanna debate
Now close your eyes, I wanna see you in a different way

This time we laugh it off and cry
Laugh it off in your own way

You've got that fucked up attitude, drive me insane
You need to fasten up so you'll never be late
I'm in the business of forgiveness if you wanna debate
Now close your eyes, I wanna see you in a different way

This time we laugh it off and cry
Laugh it off in your own way
Laugh it off and cry
Laugh it off in your own way

Oh, who loves you more than I, love?
And all that's behind you, settle down love
Who loves you more than I, love?
And all that's behind you, settle down love

Oh, who loves you more than I, love?
And all that's behind you, settle down love
Who loves you more than I, love?
And all that's behind you, settle down love
