

Legend Of Zelda!

DC the Don

I see ya
Ooh

It's not me, it's you
Been long gone, mystical
Then stay out that schedule
See, you let this game get the best of you
Go 'head, pick up the phone, got a question, boo
So much hate in the room, they possessin' you (Trademark!)
How the fuck could you make it out and never have a doubt?
You should've been on your last one, damn, damn

Nigga, whats the dealie, what we gettin' into?
Actin' like a bitch, split his wig in two (Woah)
Whole city and his bitch fuckin' with it too
Wake up wrong side of bed, in a really bad mood (Yeah)
Whole face goin' red, put a bitch on snooze
Don't be walkin' in my way, you ain't gettin' excused (Huh?)
I don't give a fuck, ayy, what you wanna do?
Lil' Super Saiyan Daij, really cool dude, damn

Yo bro, Lil Frosty, he with me, we active, we startin' a moment (Damn)

Ayy, shawty, just vibe with me one time (Yeah)
Take another load off for the one time
This shit it really been exhaustin' me one time
Now I get a case off, takin' overtime
True love, hatin' feelin' lost in this damn life
New wave, brodie in the kitchen whippin' Kool-Aid (Woah)
Got the bass line jumpin' like Roody
Move around now nigga, its a new age
Yeah, free shawty freak alot
Feel like Giannis, he stretchin' out on the block
Standin' 6'7 tall with a lot of guap
If I stand on that shit, bitch, I'm meetin' God
Ayy, clearly I'm in beast mode, feelin' like Steve-O (What?)
I ain't tryna talk, take yo' ass down and deep throat (What?)
Walkin' outside in a brand new Mink coat
Smellin' like Dior, good gas, and some peso
GTA 5, niggas really got cheat codes
Goin' too fast, nigga tap on Carlito (Yeah)
Shakin' my dreads, turnin' up to Faneto
All these clout chasin' hoes on my dope, I don't need those, damn

Gordon Ramsey, I stir the pot
Supernova, I'm fly, I'm an astronaut
Said I'm goin' to hell, but I'm prolly not

Ayy, 'cept for when you leave though, feel like I could see though
Tryna make the clock, shoot it fast like a free throw
If you can't stand me, go ahead and take a seat, ho
