DC the Don

Down for you and that's for sure
Aim another nigga go as far
As I would go
I give off a vibe you ain't never felt before
Broke girl stay away
If you can't keep shit on the low
And I been down for you
Down for you
Down like whoa
I'll stay around
Stay around like whoa
And together we can shine
We can shine like whoa
She just want to take all my time like whoa
But it's okay
Really Should of never really said that
Cause now she always trippin
Where I let my head at
If you want a single
Then you should of said that
Don't be playing stupid like you
Never read that
Now I ball like yah
I can hit for you
Ball now I did it for you
Now they watching from the side
Like they hatin and we finally made it
You fuck with a nigga like me
Do u ever fuck with a nigga like me
Like do u ever fuck with a nigga like me
Have you ever fucked with a nigga like me
Cause I'm into with my emotions
Into with my emotions
But Ima still fuck you out in the motion
So leave that pussy wetter
Than the oceans
Real nigga at heart tho
I had better intentions when I
Met you from the start tho
Really I didn't love you
I just had to play a part tho
Till I got you naked
Now you barley see me call tho
Yeah and that's fucked up
I didn't choose the game
I had to play you gotta luck up
Really in the field
When I was young I had to buff up
Eat my ramen noodles till
The day I got enough bucks
Mad at me cause I'm famous
Mad cause You broke and now
Look who made it
Mad cause I'm spending I
Don't ever save shit
Crazy how you doubted and now
You're DM's ain't shit

And now you still call and
Say belated voice mail and I replayed it
And I just start laughing cause I'm faded
Live life so fast I feel amazing
You fuck with a nigga like me
Do u ever fuck with a nigga like me
Like do u ever fuck with a nigga like me
Have you ever fucked with a nigga like me
This rival should I change it
Cloud 9 I'm in the matrix
I just feel so bad for all you favorites
Cause 2018 niggas finna face it
