

## Lone Wolf

## DC the Don

Yeah

Yeah

V-V-V-VVS's on my diamonds

AP, That's bustdown, My watch got perfect timing

I know she don't trust me cause my history of lying

We can make it work as long as shawty know I'm trying

V-V-V-VVS's on my diamonds

AP, That's bustdown, My watch got perfect timing

I know she don't trust me cause my history of lying

We can make it work as long as shawty know I'm trying

V-V-V-VVS's on my diamonds

That bitch wanna fuck me cause I took her to the Islands

That boy got no racks, why these pussies always lying

I don't never cap, keep the strap right by my side, bitch

Me and DC in the whip and we swerving

Get the guap, never stop, like it's urgent

Imma cut her off, like a surgeon

She say she in love with me, but baby it ain't worth it

AP my wrist, told them it's bustdown

I got cash, she just wanna fuck now

My whip fast, I was cruising 'round town

Got my bag, Gucci on my bag now

V-V-V-VVS's on my diamonds

AP, That's bustdown, My watch got perfect timing

I know she don't trust me cause my history of lying

We can make it work as long as shawty know I'm trying

V-V-V-VVS's on my diamonds

AP, That's bustdown, My watch got perfect timing

I know she don't trust me cause my history of lying

We can make it work as long as shawty know I'm trying

I-I-I-I don't know how you don't feel me

If you hate me so much, why don't you kill me

All of these back and forth exchanges getting silly

I can't play with these dirty games, I did them filthy

Gotta get my pack in before my show and off to Philly

Gotta put that Moncler on my back, it's getting chilly

Finna throw my pain inside this bottle, it's gonna heal me

And it's not a fabricated story, this the real me

Baby, my story incredible

I'm still with you when I'm on the road

Where the fuck else am I gonna go

I ain't met a bitch yet that I wanted more

I just bought a Patek, leave it on the floor

Don't be getting upset, I didn't wanna score

Imma give her the best that I can afford

We gonna pull up and skrrt in Aventador
