DC the Don

Yea, ok
I'm taking off to the moon
Yea ok
I'm taking off to the moon
Yea yea
I'm taking off to the moon
Yea yea
I'm taking off to the moon

Where do you wanna go
Where do you wanna go?

Where do you wanna go
Where do you wanna go?

Where do you wanna go
Where do you wanna go?

Where do you wanna go
Where do you wanna go?

I left that hoe in the past
(Play ball bitch)
I left that hoe in the past
I'm doing numbers so fast
I do the digital dash
I'm doing numbers so fast
I do the digital dash

Like wooah

I fill the ace of spades
I'm finna grab the wrait
Call me or navigate
I had a badder day

I fill the ace of spades
I'm finna grab the wrait
Call me or navigate
I had a badder day

Talking shit right to my face
Like Fuck out my face

Bet you you won't gone replace

What I done did for you then
Was only back then

Me and you fading away

Bitch I'm so high in the clouds
Like look at me now

It's over no coming around

That's why I be making these songs

That sound so alone

Cause your always bringing me down

Where do you wanna go?

Where do you wanna go?

Where do you wanna go?

Where do you wanna go?

Where do you wanna go?

Where do you wanna go?

Where do you wanna go?

Where do you wanna go?

Where do you wanna go?

Where do you wanna go?

Keep this shit on the low

But I got the antidote

Talking shit he gotta go

Talking shit you gotta go

Brodie don't want no smoke

Brodie don't want no smoke

Nah he don't want my gunnas

Cause I got about a hunnit yea

I Ball like stunna yea

Talk about how we comin

If you want it better run it

Nigga you don't really want it yea

Nigga you don't really want it like

Nooo

Lately I feel so alone

Yea just admit that you was wrong

It's so weird you never call my phone

Yea

Talking shit you better run it

Talking shit you better run it

Talk it then run it

You better leave me with something

Ending our love with assumptions

Like it was nothing

Crazy I came up from nothing
