You can try to talk to me, but you don't wanna listen  
Got a lot of problems, and I know they need some fixing  
Diamonds in my mouth, watch 'em shine and watch 'em glisten, glisten  
Know they fuckin' shine, I'm kidding, kidding

You won't call the line  
Say that you hate me but I'm still in your life  
You can try to move on, but I know you got a type  
And I know you gonna sound wrong, but I'm in the right  
I need to talk so give me more life  
You in my phone, I'm moving too light  
And I told you I was good, as expected

Tried to shoot your shot at me, you hit the bank, bank, bank  
And you're my number one, girl, really, it's fuck it, you're in the top  
You said I'd get a litte famous from love  
Make a few songs for me to feel one day and fall off

Let's play pretending, keep it cool, like it's really true that you love me
