If you ain't getting money this the wrong direction  
I'm plugged in with his daughter, so I'm well connected  
This mob life that I'm living got me well respected  
I'm beating out her back, so it's gon' be a second  
Making sound effects like I was playing Tekken  
She said she came from New York  
And her nigga just too broke, his money too short
