Leave Me

DC Young Fly

I know you tell me
You tellin' over and over again
And that you want to leave
But I keep bringing you back 'round

And I be acting like I don't care about you
But nigga know that I don't play about you
Ain't nothing bad I can say about you

But baby if you wanna leave me
Oh you bullshitting acting like you don't need me
And you act like you don't know me when you see me
And you act like you don't know me when you see me

I know you tell me
You tellin' over and over again
And that you want to leave
But I keep bringing you back 'round

And I be acting like I don't care about you
Nigga know that I don't play about you
Ain't got nothing bad to say about you

See you on the gram with your pool thang
See you on the gram with your new thang
Girl you tryin' me and took it to the blue flame
Got me wondering like, damn, baby who range [?]

I don't really know what imma do man
I don't really know what imma do man
Need you bae
Come through bae
I'm too late
I'm too late

I know you tell me
You tellin' over and over again
And that you want to leave
But I keep bringing you back 'round

And I be acting like I don't care about you
Nigga know that I don't play about you
Ain't got nothing bad to say about you
