Fall in love, I hate that shit  
Knockin' me off my grind, I can't fuck with relationships (Oh)  
I ain't even got enough time in a day for me to chase a bitch (No)  
I don't even ask for much, I ask you to do the basic shit (Oh)  
Hardest thing I did was fall in love with a famous bitch

Fans all on my penis (Penis) too much stress, don't need it (Don't even need it)  
If you see me tweet, don't read it, I swear I'll delete it (I will)  
Sometimes I feel so defeated, broken hearts repeated (Oh)  
Said "I love you", did you mean it?  
Why don't I believe it?

I'm tryna figure out what we gon' do  
How we gon' get to the top?  
Filmin' a movie now you kissing dudes  
You know I love you a lot  
I don't give a fuck if that shit for promo  
I don't wanna see this shit no more  
Why is y'all holdin' hands in the photo? You know I'm insecure, that's a no-no  
I keep comin' back  
Wanna leave you but I'm too attached  
Take you shoppin', I'm thumbnin' through racks  
Ain't no limit, I'm spendin' the max  
All these niggas that be in your DM tryna tell you they proud  
But them motherfuckers don't even know you, so I wanna know how  
But I know that's just part of the game  
All these industry niggas is lame  
They just want you 'cause you got a name and because you the girl that I claim  
All these motherfuckers all in my business  
They be stressin' me out on some real shit  
I get so high, I can't feel shit

But on the internet, I just be coolin' it, but in my head, a nigga really losin' it  
Gotta be payin' good 'cause you keep doin' it, I might just tweet somethin' just to ruin it  
I got a platform, I'm abusin' it  
It's a couple things about your job I wanna know (I do)

When you shoot your movie, do these niggas turn you on? (On)  
When you leave the set, do y'all still text each other phone? (Phone)  
Just because they filmin' it, it don't mean that it ain't wrong
