

in my zone

DDG

(Shout out 10Fifty)

I look in your eyes and I can tell you what I want
Make me fantasize, I wanna memorize your moan
I can't be around you all the time, I'm on the road
Even though I'm busy, I make sure to hit your phone
I stay on your line, I'm makin' sure you make it home
You must really fuck with me, you fly to LA all alone
Only stoppin' by, but I'm gon' miss you when I'm gone
I wish I could stay and vibe, but I just can't, I'm in the zone

Would you fuck with me if I was dressin' so bummy?
Would I still have value to you without havin' no money?
Got you reminiscin' when I had your soul cummin'
You ask me when I'ma pull up, I don't know, I'm road-runnin'
Flyin' state to state, this lifestyle so invested
If I don't pick up the phone, it's 'cause I'm tired, still rest
in'
Feel like I'm in school, it's 3 a.m., we still textin'
All the broken hearts before you start to feel like real bles-
sings

I feel like I found the one
You the brightest in the bunch
You give me that feeling, butterflies in gut
Do that mean that this is real love or what?

I look in your eyes and I can tell you what I want
Make me fantasize, I wanna memorize your moan
I can't be around you all the time, I'm on the road
Even though I'm busy, I make sure to hit your phone
I stay on your line, I'm makin' sure you make it home
You must really fuck with me, you fly to LA all alone
Only stoppin' by, but I'm gon' miss you when I'm gone
I wish I could stay and vibe, but I just can't, I'm in the zone

Can't, I'm in the zone
