

Move 'Em In, Move 'Em Out

De La Soul

Who said the party's only up in the club?
Wherever we go, they just showing us love
Move 'em in, move 'em out, move 'em in, move 'em out
Move 'em in, move 'em out, let's go live...
Who said the party's only up in the club?
Wherever we go, they just showing us love
Move 'em in, move 'em out, move 'em in, move 'em out
Move 'em in, move 'em out, let's go live...

Yo, I got water to tread
To build it like a sea with legs
Clock radio sings, I'm out the bed
Pop living is deliberate
Not so much that I'm hot, but I'm never shivering
And chivalry ain't dead
I ain't feeding them ho's believing that we're to be fed
Got game to shake (in my own image)
When I take the rest of the game I still scrimmage
Live on stage or alive in the booth
I get live on the living and exploit the youth
Invasion of the American rap band
I walk around rap land under the influence of the truant
Meaning I'm absent from the old and new school rules
Played by me, there's no rules!
True wit and grit and everything I do
As I name tag pop under everything I drew
So vivid within them studios, I'm Michael Bivins
And make another bad creation
After that, I'm facing the mics in the radio stations
Saying it's about to sprout (first serve, move out!)

Who said the party's only up in the club?
Wherever we go, they just showing us love
Move 'em in, move 'em out, move 'em in, move 'em out
Move 'em in, move 'em out, let's go live...
Who said the party's only up in the club?
Wherever we go, they just showing us love
Move 'em in, move 'em out, move 'em in, move 'em out
Move 'em in, move 'em out, let's go live...

Up stream like trout in lakes
Enjoying each night for a dollar a day
I'm fiending for the funk, see me sniffing the breaks
I got lost in the style, I gotta find my way
I gotta itch for this rap shit, ya feel me? (yeah!)
So get the DJ scratch out the intervention (do it!)
I'm in dimension, 2 by 16s'
You all broke LP niggaz threw in the bay
A bit of head-bobbin', weave and all
Pit stop sipping son I'm with the fam!
Deen whitter got narcotic baby
More bounce to the ounce to the kilo gram

Who said the party's only up in the club?
Wherever we go, they just showing us love
Move 'em in, move 'em out, move 'em in, move 'em out
Move 'em in, move 'em out, let's go live...

Move 'em in, move 'em out, move 'em in, move 'em out

Yo, how first serve gonna chill working?
Shit! Biggie and Pac is still working!
Acting like surgeons, split the crowd up
Got them fellas getting all riled-up
Girls all styled-up, now all sweaty
Hot after two shakes of the Tabasco
Wanna hear self (but the monitor's quiet!)
Turn it up sound man, that ain't much to ask, yo!
Yo, where was i? oh yeah, the ladies!
Throw your hands up so I can read your lifeline
(Peter picked peppers) but I'm picking this stepper right here
She wanna be the jump off in her lifetime

Chancy, ain't it? fancy, ain't it?
Curtains drew rather Nancy, ain't it?
I got a gift like ribbons and boxes
Giving them bosses, remember gibbons and boxer?
Iron mic, see we're strictly cordless
Your plastique could not afford this
Just applaud this, mimic a walrus
One tree falls, shit I'm right in the forest
I got a itch for this rap shit, you feel me? (yeah!)
So get ya drum program out the intervention
I'm in dimension, could be 2 by 12
You the 12" niggaz threw in the bay

Move! Move! Move! Move!...
Keep moving 'em in, just move 'em out
Gotta move 'em in, gotta move 'em out

We got a couple of cars, a couple of cribs
Got a couple of them girls, did a couple of vids
Hit a couple of lows with a couple of mids
And we still right here grinding on the grid
And ain't nothing to lose and nothing to fear
Nothing standing in front of us, not a thing in the rear
And nothing gonna stop us, got nothing but time
First serve on stage, never hard to find

Who said the party's only up in the club?
Wherever we go, they just showing us love
Move 'em in, move 'em out, move 'em in, move 'em out
Move 'em in, move 'em out, let's go live...
