

## Remove 45

De La Soul

We must defend the rights of every citizen to live without violence, prejudice, or fear (Russia, Russia, Russia, Russia, Shut up)  
How you doin'? Hey Donny!  
(We can't have a situation, like, what happened in Minneapolis to descend further into lawless anarchy and chaos)  
We support the overwhelming majority of police officers (He's a bad, bad guy)  
Who are incredible in every way (Ah!)  
And devoted public servants (I can't breathe, I can't breathe!)  
Listen here, Trunk  
And I'm in the White House and I was lonely (Fire the president, please)  
I said, "Let's go to Iraq!" (Sheesh)  
When the looting starts, the shooting starts

Feelin' appalled while I'm watching CNN  
The president's a racist, when will it see an end?  
It's difficult to take hate, think about it  
Only a racist would race-bait (Only a racist)  
If you a Black man or you an immigrant  
That speaks Spanish, you ain't in a safe place (You ain't in a safe place)  
You gotta worry about your life again (Worry)  
They tryna make America white again  
Grab 'em by the pussy and he don't like Blacks (Trump)  
He don't like Mexicans, he don't like Arabs  
But you don't wanna hear it if you don't like facts (Ask Trump again)  
And less the alternative  
Fire 45 and Mike Pence  
'Cause it don't make sense (Get 'em outta here)  
We need a better alternative (We need a better alternative)  
Yeah, (Remove) the president  
If I'm from a shit-hole, his speech is venomous

This ain't no Change.org, this what we bang out for  
We some grown-ass men, niggas ain't Proud Boys (I told y'all)  
We the Black radical, Black magical matadors  
Beta sweaty alphas stay protected by the status quo  
These coons try to degrade us  
White supremacists, they shootin' at they neighbors  
Going to marches, yellin' "Jews will not replace us"  
Face it (Face it), 45 set the precedent  
What we need to do? We need to arrest the president  
I'm Tragedy Khadafi but actually seein' Nazis  
Rockin' Dead Prez while informin' the people army  
They callin' me articulate for actually speakin' properly  
'Bout to get it poppin' ASAP, just like Rocky  
Attackin' the bureaucracy is mandatory for a democracy  
Removin' the boot that stay on top of me  
The Oval Office is a mockery  
Kickin' Melania out the country, that's my immigration policy

Within the head of the governing body we found a cyst  
A narcissist who's a racist  
The flow of a modern government's in a stasis  
The cynic illusion  
Those who migrate now are called an intrusion  
To this new agenda, so we stand  
As defenders and protestors callin' y'all fascist

And our attitude is quite flammable  
So don't come 'round here wavin' no matches  
Wait, let me turn off the hate  
Though it's hard to spread harmony when his policies are for harm  
People of color is not a blemish on the face of white America  
But his story breeds hysteria  
Which means wisdom being pulled out of the root of the White House  
Sort of like a tooth  
But do understand, we have cysts as well  
Lyricists here to question your alternative truth

A billionaire, reptilian in human skin, imposter  
Allahu Akbar, this is for la raza  
He's sick mentally, not credible, inherently  
So stupid, he thought Bitcoin was edible currency  
Clown-ass president  
More of a clown's ass than Ronald McDonald's rump, look  
Every person that voted for Donald is not a racist  
But every racist who voted probably voted for Donald Trump  
A-F-R-I-C-A  
Angola, Soweto, Zimbabwe  
Tanzania, Zambia, Mozambique  
Botswana, let me speak, uh, hold up  
I been waitin' to say this, fuck you, you suck  
It's glue under the toupée, your father was Ku Klux  
Kevlar body armor, we ready to suit up  
And televise it, 'cause I don't give two fucks

One, two, three, remove 4-5  
One, two, three, remove 4-5  
One, two, three, remove 4-5  
One, two, three, remove 4-5

You gotta remove the president, it's evident he's negligent  
He lacks intelligence needed to be the president  
So as a resident and U.S. citizen (What?)  
I say we vote, and I vote to get rid of him (That's right)  
There's never been a time I can remember when  
We had anyone in office this ignorant  
Now we got evidence that he committed treason  
We all want him gone, now we got a reason  
How we gon' believe in a country when the leader (What?)  
Is a racist bigot, and a cheater  
The land of the free and the home of the brave  
And if Trump has his way, then we all gon' be slaves  
And the fact that he's praised by some lets us know  
That America still has so far to go

Let's hear that (Fuck Trump)  
So we got this petition track (Nigga, pack your shit)  
Y'all know don't notice this Trump POTUS  
Got the whole damn world thrown off it's focus  
Flat Earth or not, I don't know if y'all noticed  
Ain't got nothin' to do with how many of y'all voted  
'Cause these criminals broke it  
This ass-head was a weapon  
Yeah, of mass distraction  
A ass whippin' is a real call to action  
Pay attention to how much money y'all was spendin'  
Nineties rap treated Trump like a Cash App  
Last four years was a smack black  
Now we know, sixty-five percent of the United States is wack  
If y'all let this dude come back (Remove)

We are the unknown cogs in the machine of the American dream  
But treated like nightmares  
And on the podium standin' right there  
The voice who don't speak for us  
Who won't seek the trust  
We did, let him tell it, he wasn't elected, but anointed  
Trying to set a record when it comes to appointed  
Judges under his watch with no face that look like mine  
And through my kids lifetime  
There'll be laws etched in stone like grooves  
People, let's get together to (Remove 4-5)
