

Anchorless

De-Phazz

across the sea
across the deep blue sea
across the sea
across the deep blue sea

anchorless across the sea
a lifetime every mile
some are listening, there will be
eternity will be for a while

across the deep blue sea
time goes by without a moon
planets seem to die
into a distance a universe
down to my surprise

across the sea
across the deep blue sea
across the sea
across the deep blue sea

time goes by without a moon
i know you will agree
the things we called reality
is what it seems to be

across the sea
across the deep blue sea
across the sea
across the deep blue sea
the things we called reality
is what it seems to be

across the sea
across the deep blue sea
across the sea
across the deep blue sea
the things we called reality
is what it seems to be
across the sea
across the deep blue sea
across the sea
across the deep blue sea
some are listening, there will be
eternity will be for a while
across the sea
across the deep blue sea
across the sea
across the deep blue sea
.....
