

# Falling

De/Vision

Since the day I met you  
Since my prayers reached you  
I know that you're the only one

And I'll never curse you  
All the lows I've been through  
Make me sure that I have won

When I look into your eyes  
I can always see them smile  
When I listen to your words  
And I feel they don not hurt  
I always want to be the one  
To talk to you and have fun

Falling  
Falling  
Falling  
In love with you

Then you take my hand  
Lead me to your land  
Let me feel your charm  
Hold me in your arms  
Well I can't escape  
And I feel no hate  
I suppose I do  
Things you want me to

Time is running fast  
Leaves me in the past  
Poison in my veins  
Makes me squirm with pain  
Can't you save me now  
Though I don't know how  
Can't you make me feel  
All my wounds you heal

Falling  
Falling  
Falling  
In love with you

When I look into your eyes  
I can always see them smile  
When I listen to your words  
And I feel they don not hurt  
I always want to be the one  
To talk to you and have fun
