## Living Fast Dying Young

Young at heart and fuelled atomically We don't miss an opportunity Driven by our insecurity We're the ones in authority We've been waiting for this moment to come

Living fast dying young We're kickin' ass we are only having fun Somehow we get along Living fast dying young We're gonna embrace whatever comes along We don't know where we belong

We're not looking for your sympathy Everything ends in a minor key We're been living for this moment to come

## **De/Vision**
