

You Are The One

De/Vision

The very moment I saw you
All my yearning took shape
You're all I ever wanted
Like a dream incarnate
We'll be perfect forever
Me and my good time girl
we we're too ordinary
For a perfect world

I am barely hanging on
Don't let go
You are the one
Some are born to pure delight
I was born to roam the night

While you're killing me gently
Our lifelines entwine
We're the stars in our own world
Unaffected by time
