

# Black Rain

Dea Matrona

Black rain, in the desert  
Black shadows, in the hallway  
Lost my mind, last night in the moonlight

Black rain, when you kiss me  
Black shadows, got my hands tied  
Lost my soul, last night in the meadows

And if you need me  
Satisfy me  
If you want me  
Don't exile me, to the black rain

To the black rain

Black rain, in the wind chime  
Black shadows, in the sunlight  
Lost control, in the final hour

And if you need me  
Satisfy me  
If you want me  
Don't exile me, to the black rain

(In the shadows)  
To the black rain  
(In the hallway)  
To the black rain

Cause the weathers changing (Weather's changing)  
And my body's aching (Body's aching)  
And my soul's hungover  
In the moonlight

Black rain  
(If you need me)  
Black rain  
(If you want me)  
Lost control black rain

Black rain, in the desert  
Black shadows, in the hallway  
Lost my mind, last night in the meadows  
Last night in the meadows  
Last night in the meadows
