Make You My Star

Dea Matrona

Hey, come here

I'm high on love tonight so come along
You know it feels just right sounds so wrong
I'm high on things like you so what do we do
I'm missing out on love can't follow through

So come on, come on, come on let's make it tonight
So come on, come on, come on, let's make it tonight

You're so fine tonight yes you are
Look so good wanna make you my star
You're so cool wanna take it far
Look so good wanna make you my star

I'm burning up right now just thinking of you
And dreaming bout the things we're gonna do
I'm burning up on desire you know it's true
Can't wait to get to you see it through

So come on, come on, come on let's make it tonight
So come on, come on, come on, let's make it tonight

You're so fine tonight yes you are
Look so good wanna make you my star
You're so cool wanna take it far
Look so good wanna make you my star

I'll make you my star (Ah, ah, ah)
I'll make you my star (Ah, ah, ah)
I'll make you my star (Ah, ah, ah)
I'm gonna make you
So come on, come on, come on, let's make it tonight

You're so fine tonight yes you are
Look so good wanna make you my star
You're so cool wanna take it far
Look so good wanna make you

I'll make you my star
I'll make you my star
I'll make you my star
I'll make you my star
