

# Wilderness

Dea Matrona

Left my soul in the wilderness  
It all started with a kiss, ooh  
Taken from me in the night  
Now my heart has lost the fight

Fire in my bones and that's just how it goes  
In the wilderness  
I don't wanna be alone but that's just how it goes  
In the wilderness

Love is blind in the wilderness  
I don't know anymore than this, ooh  
Gonna try and play this game  
Now my life won't be the same

Fire in my bones and that's just how it goes  
In the wilderness  
I don't wanna be alone but that's just how it goes  
In the wilderness

I'll come runnin' to ya  
I'll come runnin' to ya

Can't run and I can't hide  
Got through to the other side  
Can't run and I can't hide  
Got through to the other side

Fire in my bones and that's just how it goes  
In the wilderness  
I don't wanna be alone but that's just how it goes  
In the wilderness

I'll come runnin' to ya  
I'll come runnin' to ya
