

City of Love

Deacon Blue

Lost the will for keeping on
Just as the winter is dragging
What can I do with all of this?
Where can I put what I'm carrying?

All that remains is the city of love
All that remains is the city of love

The city of love

If you've got the will you've got to keep on going
No matter what the world is saying
No one can stop you, not until
You reach the end and lay down your burden

All that remains is the city of love
All that remains is the city of love

The city of love

Hold on
He said
She knows
It made sense
Don't go
Too far
You can't know
What matters

All that remains is the city of love
All that remains is the city of love
All that remains is the city of love

City of love
City of love
