

I Will and I Won't

Deacon Blue

Every time I think of that night
I still smile
I made you laugh and you were kind enough
To make me feel good for a while
At last when you fell in my arms
I knew you were glad
It was so good to learn how things
Take a turn to happy from sad

Will I tell you all the things if my heart says so?
Will I show you everything I want you to know?
Well, I will and I won't
I do and I don't

Every time I think of that night I still smile
If I laughed and showed kindness
It's cause you made me feel good for a while
In your arms this girl's chances
Didn't seem so bad
Though I didn't get you
I could not forget
To remember the night we had

Will I tell you all the things if my heart says so?
Will I show you everything I want you to know?
Well, I will and I won't
I do and I don't

Will I tell you all the things if my heart says so?
Will I show you everything I want you to know?
Well, I will and I won't
I do and I don't
Will I tell you all the things if my heart says so?
Will I show you everything I want you to know?
Well, I will and I won't
Do I love you
I do and I don't
