

Little Lincoln

Deacon Blue

In this country dreams don't sleep
Hands stay open wide as the streets in your pocket
Under your shoes these golden roads
keep telling you

Find out fast, Find out hard, Your little Lincoln, Little Ford

Want to walk tall
As the buildings go mountain tops of Colorado
You're rolling faster than the big cars go
Big cars hit hard and knock you low

Find out fast, Find out hard, Your little Lincoln, Little Ford

Men talk loud
What they can ill afford little Lincoln yeah little Ford
The whole world sleeps and baby you drive
Taking the ocean in your stride never crosses your mind

That wheel keep turning lights keep falling
White walled tyres keep burning

Find out fast, Find out hard, Your little Lincoln, Little Ford
Find out fast, What the can ill afford, Little Lincoln, Little Ford
Find out fast, Find out hard, Your little Lincoln, Little Ford
