

# London Comes Alive

Deacon Blue

I was midnight walking  
And daytime talking  
You can see the best in me I know  
I got distracted  
You were broken hearted  
But I still tried to follow where you'd go

And every time you wish me peace  
Or take a joke with perfect ease  
Or hear my doubts with sympathy  
It's like London comes alive

We both know the river  
Gets stronger and longer  
And crossing it's the hardest thing to plan  
You took us together  
Sister and brother  
And brought us safe ashore  
where we now stand

And even if you'd one regret  
It couldn't spoil the best thing yet  
Some special days our eyes have met  
And it's like when London cameo alive  
It's such a surprise

Any time you want, just say  
Phone me up and I'll be there  
What you need to hear I'll say  
Anything

Cause every time you wish me peace  
Or take a joke with perfect ease  
I know you're down on bended knee  
Trying to make everything all right  
Like when London comes alive
