

Paint It Red

Deacon Blue

I've got it all to do; the purples, green and golden hues
In the bright new world
Lets take all the people too
You and me and Emeroo in her frills and curls
Outside here its so lovely
Outside here we're so free, so cool and everything
I see the birds so high all above my head
And the roads all broken and there's nothing there instead
I'm going out there and I'm going to paint it red
I'll take the shiny road, the rivers and the rolling hills
And you have here
I'll follow the yellow sun, and all the ways it burns
And you stay here

Inside now it's so lonely
Inside now you just can't see or feel or anything
