

Send a Note Out

Deacon Blue

Somebody's angry
Somebody's hurting
They didn't look you in the eye
So now you're worried

There's a corner
Where you used to meet your friends
But it's gone now
These days it feels like nothing seems to mend

Always, always
Always, always
Send a note out
Tell them how you feel
Send a note out
You know that something's needed
Send a note out

I'm going to write it down
Don't need no Valentine's Day
I'm going to tell you I feel now
Gonna say what I'm gonna say

Always, always
Always, always
Send a note out
Tell them how you feel
Send a note out
You know that something's needed
Send a note out

Some houses and special things
Can slip away with a cold hard wind
A cold hard wind

I don't love you any more
That's the worst thing I could ever say
So if it's something that I'm thinking
If it's something that I'm feeling...

Always, always
Always, always
Send a note out
Tell them how you feel
Send a note out
You know that something's needed
Send a note out
