

Time

Deacon Blue

Time
If I did everything wrong
Time
You did everything right
Time
So what are we gonna do
Time
With the rest of it?
Time
What do I need to know?
Time
Do I need to trust some more?
Time
Or is there just enough road
For us both

There's only words to say we ever were
I hear your voice inside me saying (singing)
Telling me there's still time
Is there still time

Time
The noise has died down
Time
And everyone's gone
Time
You're standing beside me
Time
So here we are then, facing
Time
And all that I know
Time
And all that I love
Time
Is here in this moment of (time)

There's only words to say we ever were
I hear your voice inside me saying (saying)
Telling me there's still time
Is there still time

Walking ways and ways to go
Understanding what we know
Time to look, time to hide
And time

There's only words to say we ever were
I hear your voice inside me saying (saying)
Telling me there's still time
Is there still time
