

Turn Up Your Radio!

Deacon Blue

Stone won't you roll
Ain't any time left at all
I'm on the right side
If you can see it all
Trying to do some good
But this cruel world never understood
So I'm gonna run
Just as far as I ever could

If you can't hear me
Turn up your radio, louder, louder
If you can't see me
You'd better look out, look out, look out

Gonna call my friends up
Yes, I'm looking at you bud
If you're worryin' about what's wrong
Turn it back into the right stuff
Can I take you higher?
Can we set this world on fire?
If you don't see me or believe me
Then look into my eyes

If you can't hear me
Turn up your radio, louder, louder
If you can't see me
You'd better look out, look out, look out

If you can't hear me
Turn up your radio, louder, louder
If you can't see me
You'd better look out, look out, look out

If you can't hear me
Turn up your radio, louder, louder
If you can't see me
You'd better look out, look out, look out

If you can't hear me
Turn up your radio
If you can't hear me
Turn up your radio
Turn up your radio
Turn up your radio
Turn up your radio
Turn up your radio
