Will We Be Lovers

Deacon Blue

All my worries All my care Is held in check For you not there

Evening comes And darkness falls We sit round And curtain out The black night

There is a time Away From here

Seasons pass So quickly come And steal the days Your work has done

They leave the fields So bare and grey I long to hold You there and say It won't change

There is a time Away From here There is a time Away From here

Will we be lovers Or will we still be Will we be lovers Or will we still be

Will we be lovers Or will we still be Still be still be
