

# I Won't Look Back

Dead Boys

All my boyhood friends told me I'd fail  
Spend my life time friendless or in jail  
All the girls at the school dance  
Wouldn't give me a second chance

But I won't look back

I remember all their social games  
Gossip spreading talk among the lames  
Friday night's lonely passions  
Empty heads with no reactions now

But I won't look back

Now i've gone and lost their scene  
The only time I see them's in a dream  
With all them trying to hurt me  
But now they know what I can be

But I won't look back

Cos revenge is sweet
