

Calling

Dead by April

I picture you now, Right in front of me
Your beautiful eyes, Looking right at me
Remember the warmth you used to give me
Wish I could bring it back,
Wish I could take it back

There are things that I never knew
I'm standing out here and I'm calling you
Mean the world to me and believe that it's true
I love you

Can you hear me calling, Calling for you
Can you hear me screaming, Screaming for you
It's like I'm naked out in the rain
Alone and dealing with the pain
Can you hear me calling, calling, calling

Remember the days we spent together
Give anything to have them forever
And all the things we used to laugh at
I Wish I could bring it back,
Wish I could take it back

Now There are things that I never knew
I'm standing out here and I'm calling you
Mean the world to me believe that it's true
I love you

Can you hear me calling, Calling for you
Can you hear me screaming, Screaming for you
It's like I'm naked out in the rain
Alone and dealing with the pain
Can you hear me calling, calling, calling

Can you hear me calling, Calling for you
Can you hear me screaming, Screaming for you
It's like I'm naked out in the rain
Alone and dealing with the pain
Can you hear me calling, calling, calling
