

Promise Me

Dead by April

Into the fire on my own, hey
I know I wont see your face again, hey
Are you sitting there alone, hey ey

Are you thinking like me of the laughing times
Or of the sad and loving times
Everything that's left of us is fading away!

Promise me to think of us
As a time so wonderful.
Promise me to think of us
Still bright still colorfull.
Promise me to look back at us
As a time in your life you enjoyed.

Surrounded by flames everywhere
What I used to be im not even there
The absence of you is killing me, hey ey ey

Are you thinking like me of the laughing times
Or of the sad and loving times
Everything that's left of us is fading away

Promise me to think of us
As a time so wonderful.
Promise me to think of us
Still bright still colorfull.
Promise me to look back at us
As a time in your life you enjoyed.

Promise me, promise me
I will be fine without you

Promise me, promise me
There's more in my life to see you

Promise me, promise me
I will be fine without you

Promise me, promise me
There's more in my life to see you

Can you promise me to see you?

Can you promise me..

Promise me to think of us as
A time so wonderful (so wonderful)
Promise me to think of us
Still bright still colorfull (still colorfull)
Promise me to look back at us as a time
In your life you enjoyed
