## **Desert Song**

## **Dead Can Dance**

Favoured one, fade on, see them run Journey round, heave ho all night long You've been afraid for far too long I've been enraged in my song

I've been a rose in my rage
I've been a rose, I've been a rose
I've been a rose

Canaan ran, since her desert song Canaan ran, rides on the bird song You've been afraid for far too long I've been enraged in my songs

I've been a rose, I've been a rage I've been a rose, I've been a rage I've been a rose
