

Better Off

Dead Eyes

I wake up every day like a zombie in a haze
Just the bastard son of a world without a name
The doors are all boarded up
The streets are filled with pain
Between my two ears
Has never felt safe

So let the river run
Let it all crash down on me
I've given all I got
Some things aren't meant to be
I live in spite of the reasons I'm so numb
I'm probably better off
So let the river run
Let it all crash
Let it all crash down on me

I've got another hundred years left in this place
I've given up on hope
Might as well make myself at home
But I really can't complain because at least I felt something
Even if it was only numb

So let the river run
Let it all crash down on me
I've given all I got
Some things aren't meant to be
I live in spite of the reasons I'm so numb
I'm probably better off
So let the river run
Let it all crash
Let it all crash down on me

Yeah, I tried to make it out
Keep on living in the dirt
Because when I ask for help
All I get is hurt

So let the river run
Let it all crash down on me
I've given all I got
Some things aren't meant to be
I live in spite of the reasons I'm so numb
I'm probably better off
So let the river run
Let it all crash
Let it all crash down on me
