

Same Old You

Dead Eyes

Stuck on repeat
Lying through your teeth
Said you'll change
But we know the truth
It's always right back to the same old
Back to the same old you

Every night is a new fight
But how it ends never feels right
Go to sleep we can work it out
Get up just to fall back down
Keep living in your bad dream
Feels like better than nothing
But it's too late to press rewind

Stuck on repeat
Lying through your teeth
Said you'll change
But we know the truth
It's always right back to the same old you
Never enough
It's only cut and run
Said you'll change
But we know the truth
It's always right back to the same old
Back to the same old you

New drug with a new numb
And every days like a rerun
Drawing your lines in the sand
Saying things we never meant
Every low is a new low
And the highs aren't high enough
Too fast when you need to go slow

Stuck on repeat
Lying through your teeth
Said you'll change
But we know the truth
It's always right back to the same old you
Never enough
It's only cut and run
Said you'll change
But we know the truth
It's always right back to the same old
Back to the same old you
Right back right back to the same old you
Right back right back to the same old you
Back to the same old you

Stuck on repeat
Lying through your teeth
Said you'll change
But we know the truth
It's always right back to the same old you
Never enough
It's only cut and run

Said you'll change
But we know the truth
It's always right back to the same old you

Stuck on repeat
Lying through your teeth
Said you'll change
But it just ain't true
It's always right back to the same old you
