Dead Girls Academy

The cameras are on, I've been waiting
Surprised that you know who I am
Cancer befalls the hated
Another soul takes a friend

This conversation's dead
Do you know who I am
You tear the rest of me
I'll sew the rest of you
It's dead
Don't try to change me

The photographs are fading
Surprised that you know who I am
Beautiful and hated
Another life takes my hand

This conversation's dead
Do you know who I am
You tear the rest of me
I'll sew the rest of you
It's dead
Don't try to change me

This conversation's dead
Do you know who I am

This conversation's dead

I'll sew the rest of you

Don't try to change me
