

Inside Out

Dead Girls Academy

Tie me up and save a lie
I don't deserve a second chance
From the moment that I tried
I knew you wouldn't let me win
We were doves in the night
Searching deep within
Now our spirits burn the ice
Beneath the darkness we have built

I can see the light we had was weak
You know it's true
You're all I ever knew

Hey just let me down
I can feel you now
Deep within my veins I'm inside out
I'm lost without a doubt
Bury me deep in your embrace
Or I will suffocate
Hey just let me down
So I can feel you now
So I can feel you now
So I can feel you now

I am lost when you're away
It's more than I can take
Buried in the coffin of my mind
A part of me has died
You were the angel of my faith
Searching hard to find a way
Now our hearts have come undone
Within the walls where we begun

I can see the light we had was weak
You know it's true
You're all I ever knew

Hey just let me down
I can feel you now
Deep within my veins I'm inside out
I'm lost without a doubt
Bury me deep in your embrace
Or I will suffocate
Hey just let me down
So I can feel you now

Hey just let me down
I can feel you now
Deep within my veins I'm inside out
I'm lost without a doubt
Bury me deep in your embrace
Or I will suffocate
Hey just let me down
So I can feel you now

So I can feel you now
So I can feel you now

So I can feel you now
So I can feel you now
