

Just For Tonight

Dead Girls Academy

It's Friday night in November
I'm hanging out with my friends
I'm sick as dog and the alcohol
Got us messed again

Oh yeah I tried
To figure it out on the fly
On the fly
Oh just one more time
Just one more time
I'll try to pretend I am right
Just for tonight
Just for tonight

I can't wait too long
I hear you calling
I hear you calling
I won't waste my breath
Until you want me
Until you want me
Until you want me
Until you want me

It's not like I don't remember
I'm lost in the club again
I'm falling apart in the parking lot
I guess I misplaced self-respect

Oh yeah I tried
I'm trying to make this right
Oh just one more time
Just one more time
I'll follow the flashing lights
Just for tonight
Just for tonight

I can't wait too long
I hear you calling
I hear you calling
I won't waste my breath
Until you want me
Until you want me
Until you want me

I can't wait too long
I hear you calling
I won't waste my breath
Until you want me
I can't wait too long
I hear you calling
I hear you calling
I won't waste my breath
Until you want me
Until you want me
Until you want me
Until you want me
