

## Forward to Death

Dead Kennedys

I don't need your way of life  
I can't stand your attitudes  
I can do without your strife

I don't need this fucking world  
I don't need this fucking world  
This world brings me down  
Gag with every breath  
This world brings me down  
I'm looking forward to death

It seems so unreal to me  
So much hate and so much pity  
I can't take another day  
It's such a bore  
It gets me really sore

I don't need this fucking world  
I don't need this fucking world  
This world brings me down  
Gag with every breath  
This world brings me down  
I'm looking forward to death  
I'm looking forward to death
