

Disconnect And Apply

Dead Letter Circus

I don't think I can take this one more day in one day
out

My tolerance has faded I am holding on here now why

I can't take another day of this

I don't feel it

I object to life inferior

I can't face another day of this

I don't feel it

I reject this life inferior

Feel the world inside my head

I'm fine

I can't even relate to all these dead end one way lines

Apply and disconnect here so that I can here the sound

in my (mind)

I can't take another day of this

I don't feel it

I object to life inferior

I can't face another day of this

I don't feel it

I reject this life inferior

Feel the world inside my head

I'm fine

Let go

Always I can find a way

I can't take another day of this

I don't feel it

I object to life inferior

I can't face another day of this

I can't feel it

I reject this life inferior

See you at work on monday
