

Tremors

Dead Letter Circus

With each step foward I hesitate
to feel it's haul growing everyday
i've grown stronger, I can feel a change
so I pull the fear and doubt so I can't breathe
and I see weakness, self constructive mind
I see weakness, self constructive mind
and both thing equaled seem to neutralise and remiss

With each foward I resinate
The balance broken there's momentum gained
i've grown stronger, I can feel a change
so I pull the fear and doubt so I can't breathe
and I see weakness, self constructive mind
I see weakness, self constructive mind
and both thing equaled seem to neutralise and remain

To lay down, stay down, don't lay down you will rebuild
You gotta give yourself a warning
there's fear and understanding
so give yourself a warning this time
this time

I'm gonna reassign my fate when the feelings over
so that I can analyse my ways when the feelings over
I'm gonna reassign my fate when the feelings over
so that I can analyse my ways when the feelings over
I'm gonna reassign my fate when the feelings over
so that I can analyse my ways when the feelings over

It's turning into sound
keeping me from ground

Would you take a life?
Or create the life?
would you take the life?

I've grown, stronger, faster, harder, wiser
stronger, faster, harder, wiser
stronger, faster, harder, wiser, wiser-er-er-er-er-er
oh!
