

That Old Temple

Dead Meadow

The twin pillars of her thighs
Hold high the halls of paradise
And through the pearly gates I go
As does the sun rise

Little by little
Been slipping on in
Little by little
Time and time again

Like the sphere's up above me
That howl in heavenly love
Yes you're my one, my only
It's you I've been thinking of
If all's but a song
Let's sing along
Through all the days yet to come

Like a river I flow
Like the prophet I see
Like the breeze I blow
It's what love's done for me

Little by little
Been slipping on in

Little by little
Time and time again

Like the sphere's up above me
That howl in heavenly love
Yes you're my one, my only
It's you I've been thinking of
It's only romance
So baby let's dance
Through all the days yet to come

Like the sphere's up above me
That howl in heavenly love
Yes you're my one, my only
It's you I've been thinking of
If all's but a song
Let's sing along
Through all the days yet to come
It's only romance
So baby let's dance
Through all the days yet to come
