

## In the Waiting

Dead Moon

Childhood dreams, make believe  
Nothings gonna break your heart  
Those who wait soon discover  
Everything falls apart  
Baby I was so naive  
Thinking I could brave the cold  
Just get me out of here  
Before we both turn too old

Tell me why, (in the waiting) why's it gotta take so long  
Tell me why, (in the waiting) why's it gotta take so long

Please don't take that part of me  
I never wanted to give away  
Run me through the things we do  
I just need a reason to stay  
Far away to a vacant room  
Where I can still see the shore  
Close my eyes to a candle burning  
Knowing you will lock the door

Tell me why, (in the waiting) why's it gotta take so long  
Tell me why, (in the waiting) why's it gotta take so long

Tell me why, (in the waiting) why's it gotta take so long  
Tell me why, (in the waiting) why's it gotta take so long

Don't disappear, don't leave me here  
Waiting for the curtains to fall  
Show me how you need me now  
And nothing else matters at all  
We've been down this road so long  
Hangin' on a twisted turn  
We should be the first ones to know  
We're never too old to learn

Tell me why, (in the waiting) why's it gotta take so long  
Tell me why, (in the waiting) why's it gotta take so long  
Tell me why, (in the waiting) why's it gotta take so long  
Tell me why, (in the waiting) why's it gotta take so long
