

One-Way Ticket

Dead Moon

Lovesick, I can't kick it
I came in on a one-way ticket
I can't zip it, my brain's dead
Going 90 with a bridge out ahead
Watch out girl, you're gonna love me to death

I can't eat, I can't sleep
I been under the weather all week
A vaccination won't make it stop
There ain't no remedy for what I've caught

She's got a doll, she sticks the pins
I look like something that the cat dragged in
I got the symptoms, don't know the name
Been to hell and back and nothing's changed
